BUS STOPS IN NEWCASTLE CITY CENTRE

Finding the best bus stop for you has just been made easier with this clear and easy to use map. Whether you are a regular passenger or using the bus for the first time this bus stop locator will help you find the closest and most convenient bus stop for your journey.

With the High Level Bridge due to re-open from Monday, June 2, we will be able to start using the route for our buses again. As a result, some of our routes and bus stops will be changing. Although only buses and taxis travelling from Newcastle into Gateshead will be able to use the bridge, this will still help ease traffic congestion on other river crossings, particularly during peak periods.

How to use the bus stop locator

If you know which bus number you wish to catch:

- Choose the bus number from the list of services
- Find the bus stop location numbers in the right hand column
- Find the corresponding flag numbers on the map
- Choose which location is best for you

OR

If you want to know which bus stops and services operate from a certain location;

- Find the location on the map
- Find the closest flag to your location
- Look up the number of the flag in the right hand column of the list of services to find details of each bus serving that location and its route.
